FHA Creed

We are the Future Homemakers of America. We face the future with warm courage and high hope. For we have a clear consciousness of seeking old and precious values. For we are the builders of homes, homes for America's future, homes where living will be the expression of everything that is good and fair. Homes where truth, love, security, and faith will be realities and not dreams.

We are the Future Homemakers of America. We face the future with warm courage and high hope.

The Future Homemakers of America is an organization dedicated to the betterment of future living. It develops girls to face whatever they may encounter with the right attitude. It tries to make the "wrongs" of today, the "rights" of tomorrow.

This takes time, but FHA with its continuing effort will hopefully mold young girls, who will participate in making this world a better place to live in.
